About this demo

This is a **free demo PDF** from StudyElites. It contains sample chapters from our Quantitative Aptitude Practice PDF so you can preview the structure, depth and quality of the full product before purchasing.

The full version (delivered after purchase via Razorpay) contains the complete chapter set, additional practice sets, previous-year question walkthroughs, and topic-wise quick-revision sheets. This demo covers approximately 15-20% of the full material.

What's inside this demo

- Chapter 1 - Number System Practice (150+ practice questions (sample))
- Chapter 2 - Percentage, Profit-Loss, Discount (180+ practice questions (sample))
- Chapter 3 - Time, Speed & Distance (140+ practice questions (sample))
- Practice question bank with answer key

Note: All content in this demo is original sample material written for StudyElites.online. It is not copied from any third-party source. Distribution outside your personal use is not permitted.

Chapter 1

Number System Practice

1.1 150+ practice questions (sample)

This chapter covers unit digit calculation, divisibility rules, HCF/LCM, remainder theorem, and surds. Mastering these fundamentals unlocks 30-40 marks in SSC CGL Tier I. Below are sample questions with worked solutions.

Unit digit problems use the cycle-of-powers trick. The unit digit of powers of any digit follows a cycle of 1, 2, or 4. Find the cycle, divide the exponent by cycle length, and look at the remainder to find the answer.

1.2 Important Formulas / Rules

Unit digit cycle of 2: 2,4,8,6 (length 4)

Unit digit cycle of 3: 3,9,7,1 (length 4)

Unit digit cycle of 7: 7,9,3,1 (length 4)

Unit digit cycle of 9: 9,1 (length 2)

1.3 Worked Example

Example. Find the unit digit of 7^{2025} .

Cycle of 7 is 7,9,3,1 (length 4). $2025 \bmod 4 = 1$. So unit digit = 7 (first in cycle).

Chapter 2

Percentage, Profit-Loss, Discount

2.1 180+ practice questions (sample)

Percentage is the most tested topic in SSC CGL Quant. Combined with profit-loss, discount, simple/compound interest, this chapter alone covers 25-30 marks. The successive-change shortcut saves precious seconds.

Successive change formula: if A changes by $x\%$ then by $y\%$, net change = $x + y + (xy/100)$. Use this for profit-loss-discount chains (markup then discount), compound interest (year-on-year growth), and population growth problems.

2.2 Important Formulas / Rules

$$\text{Successive change: } x + y + (xy/100)$$

$$\text{Profit \%} = (\text{profit} / \text{cost}) \times 100$$

$$\text{Discount \%} = (\text{discount} / \text{marked price}) \times 100$$

$$\text{CI for 2 years: } P \times (1 + r/100)^2$$

2.3 Worked Example

Example. Marked 40% above cost, 20% discount given. Profit %?

Successive: $+40 - 20 - (40 \times 20 / 100) = 20 - 8 = 12\%$. So profit = 12%.

Chapter 3

Time, Speed & Distance

3.1 140+ practice questions (sample)

Time-speed-distance problems revolve around the formula $\text{distance} = \text{speed} \times \text{time}$. Common variants: trains crossing poles/platforms, boats in streams, relative speed, average speed for round trips.

For trains: a train of length L crossing a pole takes time $= L/\text{speed}$. Crossing a platform of length P takes time $= (L+P)/\text{speed}$. For boats: downstream speed $= \text{boat speed} + \text{stream speed}$; upstream speed $= \text{boat speed} - \text{stream speed}$.

3.2 Important Formulas / Rules

Distance = speed x time
Train crossing pole: time = L/speed
Train crossing platform: time = $(L+P)/\text{speed}$
Boat downstream: $b + s$
Boat upstream: $b - s$

3.3 Worked Example

Example. A 150m train crosses a pole in 7.5 seconds. Its speed?

Speed = distance / time = $150 / 7.5 = 20 \text{ m/s} = 20 \times 18/5 = 72 \text{ km/h}$.

Practice Question Bank

10 sample questions with answer key.

Number System

Q1. Unit digit of 7^{2025} ?

- (A) 1
- (B) 3
- (C) 7
- (D) 9

Answer: (C) 7 - cycle of 7 is 7,9,3,1; $2025 \bmod 4 = 1$, so first in cycle = 7.

Q2. HCF of 96 and 408?

- (A) 12
- (B) 24
- (C) 36
- (D) 48

Answer: (B) 24 - $408 = 96 \times 4 + 24$; $96 = 24 \times 4$; HCF = 24.

Percentage

Q3. Marked 40% above cost, 20% discount. Profit %?

- (A) 12%
- (B) 15%
- (C) 20%
- (D) 25%

Answer: (A) 12% - $40 - 20 - (40 \times 20 / 100) = 20 - 8 = 12\%$.

Q4. If A's salary is 20% more than B's, B's is what % less than A's?

- (A) 16.67%
- (B) 20%
- (C) 25%
- (D) 33.33%

Answer: (A) 16.67% - $(20/120) \times 100 = 16.67\%$.

SI/CI

Q5. SI on Rs.5000 for 2 years at 8% per annum?

- (A) Rs.600
- (B) Rs.700
- (C) Rs.800
- (D) Rs.900

Answer: (C) Rs.800 - $(5000 \times 8 \times 2) / 100 = 800$.

Q6. CI on Rs.1000 for 2 years at 10% per annum?

- (A) Rs.200
- (B) Rs.210
- (C) Rs.220
- (D) Rs.230

Answer: (B) Rs.210 - $1000 \times (1.1)^2 = 1210$; CI = 210.

Time & Work

Q7. A in 12 days, B in 18 days. Together?

- (A) 6
- (B) 7.2
- (C) 8.5
- (D) 9

Answer: (B) 7.2 days.

Time-Speed

Q8. 150m train crosses pole in 7.5 sec. Speed?

- (A) 60
- (B) 72
- (C) 80
- (D) 90

Answer: (B) 72 km/h - $150/7.5 = 20$ m/s = 72 km/h.

Mensuration

Q9. Area of a circle with radius 7 cm?

- (A) 154
- (B) 144
- (C) 164
- (D) 134

Answer: (A) 154 sq cm - $\pi \times 7^2 = 22/7 \times 49 = 154$.

Q10. Volume of a cube with side 5 cm?

- (A) 100
- (B) 125
- (C) 150
- (D) 175

Answer: (B) 125 cu cm - $5^3 = 125$.

About StudyElites & How to Get Full Access

This demo PDF was prepared by **StudyElites.online** as a free preview of our Quantitative Aptitude Practice PDF. We hope it gave you a clear sense of the structure, depth and tone of our products.

What you get in the full version

The complete Quantitative Aptitude Practice PDF includes 10+ chapters with full theory, 100+ worked examples, shortcut techniques, previous-year question walkthroughs and topic-wise practice sets with detailed solutions. The full PDF is roughly 150-250 pages.

How to purchase

Two ways to get access

- 1. Single product** - Buy this product individually from the Products page on studyelites.online. Secure payment via Razorpay, instant download after verification.
- 2. Membership** - Get the StudyElites 30-Day Membership for Rs.29. Includes access to all six study materials for 30 days plus our Telegram educational community.

Contact

For any access issue, refund request, or query about your purchase, write to **ankushjha4806@gmail.com**. Please include your Razorpay Order ID and Payment ID (shown in the success dialog after payment) for the fastest resolution.
